

ARGENTA MAGNOTICA PRO

The magnotica pro is a magnetic and contactless door closer which holds interior doors shut without the need for a door handle or latch. Because there are no moving parts, the door can be opened and closed completely without making any noise.

argenta magnetica pro

The magnetica pro is a magnetic and contactless door closer that allows interior doors to be held in a fixed position without the need for a handle or lock. Because there are no moving parts, a door can be closed and opened completely silently. The magnetica pro is ideal in combination with all argenta pivoting hinges and the argenta® invisidoor door frames. The contactless door closer can be used both vertically (reveal of the door leaf) and horizontally (top of the door leaf) on any type of door frame.
